Don't store your boat trailer for the winter until you have winterized it!

Bearings with water in them stored all winter corrode and fail nearly immediately when you move them next year!!!

PCTP \$150.00 Trailer Service Includes the following:

- Complete Light Testing and Wiring Repair / Replacement of up too TWO non functioning lights as long as they are intact. (We do not cover the cost of BROKEN lights) We will repair or replace any bad wiring or connections.
- Structural Inspection of all frame components and repair any broken welds or sections.
- Inspection of running gear, Springs, Hangers, Axles mounts & Brackets
- Inspect and Grease Bearings. (Bearings that require removal and repacking (non EZ-Lube) are subject to a seal charge as they must be removed and are not reusable)
- Check Tires for Tread Remaining, Correct Air Pressure and Fitness
- Check Brakes and Braking systems for performance and Check Fluid levels in actuators.
- Hot Power washing of trailer after Repair / Inspection is done.

We also offer the following services:

- Re-Painting of trailers, (Most units are under 250.00)
- Replacement of Axles, Couplers, Tires & Bunks
- Swing Away Tongues

*****We do not cover repairs of frames damaged by Corrosion or Impact Damage.**
